***Drawings***

1. New corrected drawings are required in this application because figure 3 and figures 4a-4k are illegible as they are reverse printed obscuring the details of the claimed invention. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

2. The subject matter of this application admits of illustration by drawings to facilitate understanding of the invention of figure 3 and figures 4a-4k. Applicant is required to furnish drawings under 37 CFR 1.81. No new matter may be introduced in the required drawing.

Applicant is given a TWO MONTH time period to submit a drawing in compliance with 37 CFR 1.81. Extensions of time may be obtained under the provisions of 37 CFR 1.136(a). Failure to timely submit a drawing will result in **ABANDONMENT** of the application.
